# WHY OWNING YOUR SPACE IS A SMART BUSINESS DECISION

## Building Equity

Monthly payments directly contribute to equity as the principal is paid down.

## Operational Cost Control

Ensure goal alignment with other owners and be a direct decision-maker regarding operational costs.

## Improving Space

Money spent on an office you own increases value for your asset, not the landlord's.

## Lease Agreements

Lease agreements are inherently landlord favoured, allowing them to charge on costs that you would not incur as an owner.

## Tax Breaks

Let tax efficiencies via depreciation, deduction of interest and other mortgage related expenses work in your favour.

## Financial Risk

Eliminate annual rent and operating cost increases from landlords.

## Commercial Condominium Prices

Prices have consistently increased year-over-year for the past decade.

## Interest Rates & Lending Terms

Take advantage of historically low borrowing rates coupled with favorable terms for owner user groups.

## Additional Benefits

Ownership provides many more financial options including renting to a third party or selling asset with the sale of a business. It also provides you as the owner with more control over building decisions and capital expenditures.

# PROJECT TEAM

## CHIP DEVELOPMENTS

Chip Pacific Developments was established on the foundation of producing user-oriented commercial real estate built on relationships, quality and a long-term vantage point.

The partners bring together construction, development and business operator knowledge to deliver a thoughtful user and investment focused product to the Okanagan industrial market. With a long runway ahead, Chip Pacific is dedicated to developing a legacy built on quality, precision and reliability.
