

# IMPORTANT UPDATE: *NEW AUTOMATED WASTE SERVICES*

Starting August 29, 2022, Scott Waste Services, LLC will begin delivering new carts to the residents of Bowling Green currently using personal waste cans.

## Here's what this means for you:

Garbage will be collected once a week, and cans must be placed curbside the night before your scheduled pickup.

Place all garbage in the cart provided. See back of this flyer for placement instructions.

Beginning September 12, we will be able to service more stops more efficiently using our automated trucks. Please be sure to use the provided cans by that time.

RESIDENTS OF  
BOWLING GREEN,

it's our honor to provide the right solutions for your waste disposal & public sanitation needs.  
*We can't wait to serve you!*

## NOW OFFERING AUTOMATED CURBSIDE SERVICE

### BULKY COLLECTION

We will also be providing weekly pickup of one bulky and oversized item per week.

This means you will need to make sure the bulky item you wish to dispose of is placed curbside, along with your cans, the night before your scheduled pickup.

### YARD WASTE

To dispose of yard waste, please ensure that the items are placed in biodegradable bags, OR tied together in a bundle. Please ensure the bundle is no longer than 4 feet, and weighs no more than 50 pounds before placing curbside.

Please visit <https://www.scottwaste.com/> for more information - including a comprehensive list of accepted items:

# A few placement tips to follow...

to ensure the collection of your garbage, recyclables or yard waste

**1** There should be 3 feet between carts, yard waste bags and structures such as mail boxes, cars and lamp posts

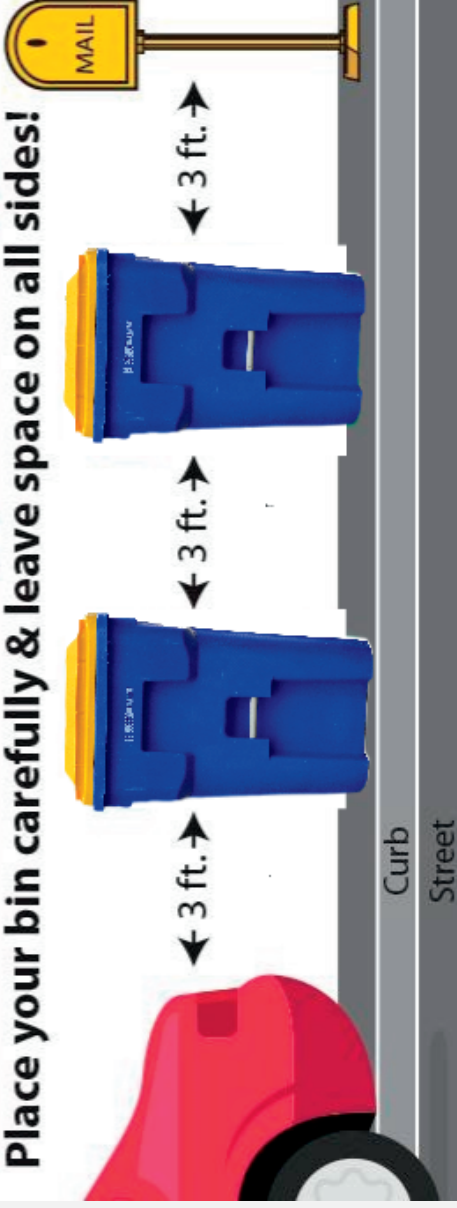

**2** Cart should be within 18 inches of the curb

**3** Face the short metal bar toward the street

**4** Position the cart on as level a surface as possible, away from overhanging tree branches

**5** Make sure lid is closed

## Place your bin carefully & leave space on all sides!

## Why does it matter?

Most collection trucks are automated with an electronic arm that grabs and empties the bin. This efficient process streamlines collection and prevents work-related injuries.

*Warren County, along with Scott Waste Services, is committed to reducing the cost of your garbage collection. Following the above guidelines will ensure that these services remain affordable for residents. Thank you.*
